

## Tips to help look after your cat

Provide a soft comfortable bed in a quiet location.

Have steps or ramps for access to higher spots.

Make sure food and water is easy to access and keep a second bowl of water in a separate place.

Provide a litter tray with a low side for easier access. Keep it in a secluded place where they feel safe; avoid busy areas of the house and position away from the

Spend some time cleaning and grooming your cat.

Cut their claws or provide a scratching post.

Encourage play and interaction to provide exercise and mental stimulation.

Have regular checkups; as cats age it's important to maintain communication with your vet to ensure they're enjoying their senior years.
